Versioning table

Version	Changes
1.1	I created the document and created user stories for the employees
1.2	I created user stories for the customers.
1.3	Fixing the user stories.

User Stories

Title:	Priority:	Estimate:
View Meals	95	1 day

User Story:
As an employee I want to view all the meals because I may want to change if something is incorrect or to delete the meal.

Acceptance Criteria:
If the employee goes to "Meals", he will see information about all the meals that are served at the restaurant as well as pictures, the ingredients, the alergens and buttons to delete and update them.

Title:	Priority:	Estimate:
Search for Meals	60	1 day

User Story:
As an employee I want to search for specific meals through category filter or by writing the name of the meal in a search engine because this will make it easier to see something I want.

Acceptance Criteria:
If the employee uses the search engine, he will only see results which contain the word he has typed.
If the employee selects a category, he will only see meals from that category.

Title:	Priority:	Estimate:
Add Meal	95	2 days

User Story:
As an employee I want to add a new meal because our pizzeria will create new meals.

Acceptance Criteria:
If the employee has filled in all the required information (category, name, ingredients, allergens and has uploaded a picture), then the new meal should be added.

Title:	Priority:	Estimate:
Remove Meal	95	2 days

User Story:
As an employee I want to remove a meal I have selected in case the pizzeria decides that we should no longer offer it.

Acceptance Criteria:
If the employee has clicked the "Delete" button on a certain meal, then the meal should be deleted.

Title: Edit Meal	Priority: 95	Estimate: 2 days
User Story: As an employee I want to edit the information of a meal I have selected in case there is a mistake that needs to be fixed or there is a change in the meal.		
Acceptance Criteria: If the employee has gone to the update page and has clicked the "Update" button, then the meal should be updated with the new information (name, price, ingredients, allergens, new picture) that has been filled in.		

Title: View Sales	Priority: 70	Estimate: 1 day
User Story: As an employee I want to view all the sales and the total income for a specific time period, so that I can see if the pizzeria is doing well.		
Acceptance Criteria: If the employee has selected time period from the dropdown list, he will see all the meals, how much each of them has sold and the total income for this time period.		

Title: View Reservations	Priority: 90	Estimate: 1 day
User Story: As an employee I want to view all the reservations, so that I can decide if they should be approved or rejected.		
Acceptance Criteria: If the employee goes to "reservations", he will see all the reservations that have been made and whether they are approved or not.		

Title: Assign Table	Priority: 80	Estimate: 3 days
User Story: As an employee I want to assign a table for a reservation I have selected, because otherwise when the customers arrive and there might be no table for them.		
Acceptance Criteria: If the employee has selected a reservation and then has chosen a table by clicking the button "Assign", the chosen table should be assigned for the chosen reservation and the reservation is approved.		

Title:	Priority:	Estimate:
Log In	100	1 day
User Story:		
As an employee or a customer I want to log in to my profile to use the features of the application.		
Acceptance Criteria:		
If the user has filled in the correct information (username and password), they would be able to log in.		

Title:	Priority:	Estimate:
Register	100	1 day
User Story:		
As a customer, I want to create a new account for myself.		
Acceptance Criteria:		
If the customer has filled in all the personal data that is required (first name, last name, username, password, email, address and phone number), a new account for him will be created.		

Title:	Priority:	Estimate:
Make Reservation	85	3 days
User Story:		
As a customer, I want to make a reservation for a specific time and a specific number of people.		
Acceptance Criteria:		
If the customer has chosen a date, an hour and a number of people, the reservation request will be sent, and an employee can later approve it or reject it. The customer can also write preferences for a table.		

Title:	Priority:	Estimate:
Add to Cart	80	4 days
User Story:		
As a customer, I want to add a meal to the cart, so that I can order it later.		
Acceptance Criteria:		
If the customer has selected the "Add to cart" on the meal they want, then it should be added to the cart.		

Title:	Priority:	Estimate:
Putting Additions	50	1 day
User Story:		
As a customer, I want to add more products to my pasta or pizza, so that it tastes better.		
Acceptance Criteria:		
If the customer goes to "Details" on the meal they want to add and checks the products they want to add from "Additions" and then clicks "Add to cart", the meal will be added with the additional products.		

Title: Choosing Size	Priority: 55	Estimate: 1 day
User Story: As a customer, I want to choose a size for my pizza, so that it meets my standards.		
Acceptance Criteria: If the customer goes to "Details" on the pizza they want to add, they can select "Small", "Large" or "Family". Then, they can add the pizza to the cart. The price of the pizza will change accordingly.		

Title: Delete a Meal from the Cart	Priority: 80	Estimate: 1 days
User Story: As a customer, I want to delete a meal from the cart if I decide that I no longer want it.		
Acceptance Criteria: If the customer goes to the cart, he can click the "Delete" button for the meal he wants to be removed and it will be removed from the cart.		

Title: Increase, Decrease the Number of Meal	Priority: 80	Estimate: 3 days
User Story: As a customer, I want to change the number of a specific meal I will order. If I want more units of it, I should be able to increase its number. Similarly, if I want less units of it, I should be able to decrease the number.		
Acceptance Criteria: If the customer goes to the cart, he can click on the arrow buttons to change the number of a specific meal. The arrow pointing to the right is for increasing while the arrow pointing to the left is for decreasing.		

Title: Change the Address	Priority: 45	Estimate: 1 days
User Story: As a customer, I want to change the address I have given right before I order if I find out the first address was incorrect or if I had moved out.		
Acceptance Criteria: In the space for the address the customer can provide a new address and click the "Change" button. The address will be changed, and the order will be delivered on the new address.		

Title:	Priority:	Estimate:
Make an Order	45	3 days
User Story:		
As a customer, I want to make an order for all the meals that I have added to the cart, so that they would be delivered to me.		
Acceptance Criteria:		
If the customer clicks the "Order" button, he will order all the meals that he has added to the cart, and they will be delivered to the address he has provided.
